

What is Community?

Materials Needed:

- Hard spaghetti noodles (one box)
- Mini marshmallows
- String
- Masking tape

Opening Activity: As a segway into Community start with an activity that involves teamwork, patience and cooperation. Rules can be said and interpreted

1. Everyone must work together
2. Everyone must smile
3. No yelling
4. No getting mad
5. No making other person feel bad.

Goal: Build tallest marshmallow noodle structure with the supplies that you have. Purpose is to foster loving relationships even in a semi-competitive environment. If you don't want to make a competition, you can leave out the part about "the tallest structure" it just has to stand without falling over.

- Talk about how everyone in the room when building their structure experienced a healthy relationship, they worked together, those who worked together the best probably had the greatest results.

PLACES IN YOUR COMMUNITY ----- Interactive Tour Around Pittsburgh (video maybe?)
